AIMS AND OBJECTS

1. The Aims and objects for which the society is established are as under:
2. For and in the course of providing relief to the poor
3. For and in the course of providing education without any distinction as to caste, colour, race, creed, religion or sex
4. For and in the course of carrying out the object of preservation of environment, watersheds, forests and wildlife, monuments or places or objects of artistic or historic interest
5. For and in the course of advancement of general welfare and thus to help the national and integration program of the government to promote community welfare and to create a sense of brotherhood, co-operation, mutual harmony, love and affection amongst the members of the society and amongst the general public:
6. For and in the course of achievement of any one or all the objects of the society and for the cause of society, irrespective of any caste, creed or religion, the society may:

Our mission

To achieve any or all the above objects, for the people of India, without any distinction as to caste, creed, colour, race, religion, or sex, the society may engage in the advancement of any other object of general public utility which is incidental to the achievement of any or all the above objects. Without prejudice to article 4.6, the society may carry out the following incidental activities for the people of India, without any distinction as to caste, colour, race, creed, religion, or sex.

About Us

Vishwakarma Vansaj International Federation Upliftment is a necessity in this time of heightened consciousness, and we can't expect to uplift the rest of the planet if we aren't in an uplifted state of mind ourselves. How can we help the rest of humanity if we can't feel the good vibration that helps us thrive in such a difficult and painful world? Despite all of the awful things that happen on this planet every day, it's important to allow ourselves to be as positive and uplifting as we can because we're here to raise the planetary vibration and we can't do this if we're too down in the dumps. We can't do anything helpful or significant if we're too busy feeling low all the time, so let's look lowness in the face and boldly proclaim that it can't stay. We won't let it continue to stop us from doing everything we're on the earth to do, and instead, we're going to soar with the understanding that it can't and won't bring us down. In order to do this, we'll have to see the importance of strength to the new world we want to create. People living in poverty are exceptionally vulnerable to crime, abuse, and exploitation. If they do not have the ability to take real and effective recourse against these

actions, then impunity and inequality are perpetuated, and their vulnerability is exacerbated. Effective and accessible justice systems can be tools to develop progressive jurisprudence on economic and social rights - mandating the provision of affordable housing, or by remedying their exploitation by powerful public or private actors.

VISHWAKARMA VANSAJ INTERNATIONAL FEDERATION

Touching hearts. Lifting spirits. Changing lives. These actions embody the essence of the Vishwakarma Vansaj International Federation Development & Empowerment programs, and the initiatives within them, while we strive to make a real difference in “improving the lives of women, youth and the communities in which we serve.” women empowerment has gained acceptance in development dialogue the world over. There is an acute need among the poor for credit, both for consumption and production, which often forms the declining line between survival and succumbing to poverty. For Women to become a successful entrepreneur, she needs access to capital, technical and managerial know-how, and market. Women are critical for the development process. Still yet to understand. Vishwakarma Vansaj International Federation, as the same name signifies, is a new direction taken by members. Vishwakarma Vansaj International Federation was conceived with the realization that the young adults at Vishwakarma Vansaj International Federation have to be equipped with skills to adapt appropriately to the needs of adulthood and thereby function as an independent whole-physically and emotionally. The program aims at creating an infrastructure, which ensures smooth graduation from school to the outside world, for the young adult and the family. It also aims to ensure training and placements of the young adults in various vocations and organizations. This can either be done independently in the residential centre or by associating with various sheltered workshops and training institutions.

CHILD EDUCATION

The unique feature of VISHWAKARMA VANSAJ INTERNATIONAL FEDERATION is Child Sponsorship programmed. For many children in need, poverty and hopelessness is a constant presence in their lives. Their lives do not hold much promise for a bright future. Caught in a cycle of poverty and exploitation, these children are lost to education and other forms of development. All they need is someone to believe in their dreams and give them a chance for a better future. Through the VISHWAKARMA VANSAJ INTERNATIONAL FEDERATION Child Sponsorship programmed, you can be the ray of hope in a child's life. For Rs 500-800 every month, you can sponsor a child. Your sponsorship will provide a child with access to education, proper health care, and clean drinking water. The child's family and community will also benefit through development initiatives and livelihood assistance.

DESTITUTE HELP

Millions of our countrymen who are impoverished and homeless, live on the streets. They are victims of causes like poverty, disability, unemployment, etc. The most vulnerable among the homeless are the sick, who have no resources to avail themselves medical treatment. Destitute women are prone to sexual exploitation. The situation of the mentally ill is also precarious. More than anyone else, children who are homeless desperately need a caring environment, so that they can grow up as productive citizens of the country.

CULTURAL UPLIFTMENT

Upliftment is a necessity in this time of heightened consciousness, and we can't expect to uplift the rest of the planet if we aren't in an uplifted state of mind ourselves. How can we help the rest of humanity if we can't feel the good vibration that helps us thrive in such a difficult and painful world? Despite all of the awful things that happen on this planet every day, it's important to allow ourselves to be as positive and uplifted as we can, because we're here to raise the planetary vibration and we can't do this if we're too down in the dumps.

We can't do anything helpful or significant if we're too busy feeling low all the time, so let's look lowness in the face and boldly proclaim that it can't stay. We won't let it continue to stop us from doing everything we're on the earth to do, and instead, we're going to soar with the understanding that it can't and won't bring us down.

In order to do this, we'll have to see the importance of strength to the new world we want to create.

WOMEN EMPOWERMENT

Touching hearts. Lifting spirits. Changing lives. These actions embody the essence of the Vishwakarma Vansaj International Federation Development & Empowerment programs, and the initiatives within them, while we strive to make a real difference in “improving the lives of women, youth and the communities in which we serve.” women empowerment has gained acceptance in development dialogue the world over.

There is an acute need among the poor for credit, both for consumption and production, which often forms the declining line between survival and succumbing to poverty. For Women to become a successful entrepreneur, she needs access to capital, technical and managerial know-how, and market. Women are critical for the Development process. Still yet to understand.

SKILL DEVELOPMENT

Vishwakarma Vansaj International Federation, as the same name signifies, is a new direction taken by members. Vishwakarma Vansaj International Federation was conceived with the realization that the young adults at Vishwakarma Vansaj International Federation have to be equipped with skills to adapt appropriately to the needs of adulthood and thereby function as an independent whole-physically and emotionally. The program aims at creating an infrastructure, which ensures smooth graduation from school to the outside world, for the young adult and the family. It also aims to ensure training and placements of the young adults in various vocations and organizations. This can either be done independently in the residential centre or by associating with various sheltered workshops and training institutions.

FREE MEDICAL

Vishwakarma Vansaj International Federation has been running a seasonal medical camp with a medical team to all the branches and as well as to some part where there is no any dispensary. The team has gone to some parts of North India where people suffer from inadequate medicine.

POVERTY & SOCIAL INJUSTICE

People living in poverty are exceptionally vulnerable to crime, abuse, and exploitation. If they do not have the ability to take real and effective recourse against these actions, then impunity and inequality are perpetuated, and their vulnerability is exacerbated. Effective and accessible justice systems can be tools to develop progressive jurisprudence on economic and social rights - mandating the provision of affordable housing, or by remedying their exploitation by powerful public or private actors.

Access to justice is also an important lever for gender equality. Women are more likely to be poor, both worldwide, but women also face extra burdens or obstacles in accessing justice mechanisms. Obstructed access to justice thus feeds the cycle of gendered poverty and violence and perpetuates impunity for gender-based crimes. Vishwakarma Vansaj International Federation has experience lawyer where the issue of injustice can bring on the table regardless of any cases especially in rural and woman issue.

HEALTH PROGRAMS

The situation calls for timely care and diagnosis which can reduce the incidence of mortality, especially among children and women. Vishwakarma Vansaj International Federation Health Camps are one such special initiative Foundation to provide healthcare services to meet the immediate health care needs of the marginalized community in remote rural areas and slums through standalone camps Hospital are Miles and Miles away. Customized health camps are organized extensively across the country offering comprehensive health services – curative, preventive, promotive, and referral, to a large number of people in selected intervention areas.

DISASTER PREPAREDNESS

The natural calamities cannot be predicted by anyone and always occurred at unexpected-like hurricanes, typhoons, tornadoes, earthquakes, tsunamis, floods or manmade crises are recurring and deadly threats- therefore we pre-position emergency supplies, help communities plan for disaster. Through our disaster preparedness initiative, we help partners in several countries in these regions purchase and pre-position critical emergency supplies to help displaced families within 72 hours of a disaster.

The next disaster can occur anytime, anywhere. You can join us in Annual Emergency Response Partners by donating to help ensure that we have the resources necessary to prepare and respond.

NGO Stationary Donate

We have Needy and Poor kids & students who need your help in stationary (Old or New Books or Notebooks) in all 15 Vishwakarma Vansaj International Federation branches of our country, where we are educating and supporting currently. As like a 1. Alphabetic Books for kids, 3 lines writing Copies for kids, Pencil, Eraser, Pen, Note Books, Slate, Colour pencil, Drawing books, Painting kit. You can either buy a few books to support our Educational Centre or you can either donate your old books to help NGO Vishwakarma Vansaj International Federation to meet the basic necessity for the needy kids.

Just How Could We Aid Impoverished Youngsters

Prior to composing any type of approach, we require to do an extensive mind storming session as well as attempt to determine the origin reason(s) of destitution. We require to assess reasons, research the behaviour pattern of the target audiences after that we require to attract a concrete approach based on our evaluation.

At existing, around 30 percent of our populace is living listed below hardship line, i.e. these individuals are incapable to fulfill their fundamental needs. Prior to going ahead, we require to comprehend the kinds of hardship. In India, whenever we chat regarding destitution, we indicate outright destitution.

Education for Underprivileged Children

A Team of youth, WHO have passion in humanity work and compassion towards the sufferings of the deprived sections of the society, are most welcome to joint NGO Vishwakarma Vansaj International Federation.

They need clear insight into the socio-economic and health problems two-faced by the downtrodden, below privileged, and marginalized segments of the communities. NGO Vishwakarma Vansaj International Federation is a non-governmental, non-profit, welfare work voluntary organization operating for AN integrated development of ladies and kids of the vulnerable phase of the society.

Donate Now and Get Tax Benefits

Be a part of our noble cause by being the volunteers of our NGO. One can become our team by helping in donations, Physical help, Material help, etc. NGO Vishwakarma Vansaj International Federation invites all the enthusiastic people who have the courage to serve their nation helplessly. Our nation has provided us everything that we want now it's our time to help our nation prosper. Join our NGO and see our nation's future come out with flying colours.

VISHWAKARMA VANSAJ INTERNATIONAL FEDERATION always welcomes the support of Volunteers for our Projects. We also offer a Virtual Volunteer ship. Please fill the form and register yourself as a volunteer. We will contact you whenever we need you. The Certificate of Volunteer ship shall be provided only if you complete the task assigned to you.

Be A Part of Our Service

Prior to composing any type of approach, we require to do an extensive mind storming session as well as attempt to determine the origin reason(s) of destitution. We require to assess reasons, research the behaviour pattern of the target audiences after that we require to attract a concrete approach based on our evaluation.

At existing, around 30 percent of our populace is living listed below hardship line, i.e., these individuals are incapable to fulfil their fundamental needs. Prior to going ahead, we require to comprehend the kinds of hardship. In India, whenever we chat regarding destitution, we indicate outright destitution.

CHILD LABOUR

Bihar, Uttar Pradesh, Rajasthan, Madhya Pradesh and Maharashtra are India's biggest child labour employers, hiring over half of India's total child labour market. Over 1.26 crore children are today caught in this evil business (Campaign Against Child Labour data).

GIRLS CHILD

In many parts of India, the birth of a girl child is not welcomed. Right from her arrival, she faces discrimination, humiliation, and oppression at every stage of life. When it comes to healthcare, education, and growth opportunities, she is neglected because of her gender. Some manage to survive and foster new paths to follow. Most, however, surrender hopelessly to the sad fate assigned to them.

The issue of girl child rights and protection in India is a very serious concern. Being home to more than one-third of the 10 million child brides in the world, India has one of the highest numbers of girls forced into marriage before the legal age of 18. If one half of our society remain so vulnerable to violence and neglect, how will the country advance or progress? Not only are they unsafe at home where they are victims of stereotypical attitude, but also in learning environments. Ill-equipped schools that lack separate toilets for girls are one of the major deterrents for parents not willing to send their girls to study.

In order to make sure that girl children get access to quality education, we need to tackle the mindset that makes it okay for young children to be employed. Girl Child Rights are being aggressively advocated in the country by individuals, governmental organizations, and many NGOs.

CHILD MARRIAGE

The legal age for marriage in India is 18 years for girls and 21 years for boys. The flouting of this law is obviously punishable. But that does not stop child marriage from being rampant across the country even in this day and age. It is often a manifestation of gender inequality, reflecting social norms that perpetuate discrimination against girls. There is an entire range of socio-economic and cultural perspectives around child marriage that prevails across castes and classes and fortifies its existence in society. Lack of education and awareness about the consequences of child marriage, poor implementation of the law, and lack of will and action on the part of the administration are important reasons for the continuation of child marriage. For girls, early marriage is the beginning of frequent and unprotected sexual activity which has serious health consequences.

Child marriage denies children their basic rights to good health, nutrition, education, and freedom from violence, abuse, and exploitation. All children have a right to care and protection; to develop and grow to his/her full potential, regardless of their social and economic situation. Child marriage is a blatant violation of all these rights.

CHILD TRAFFICKING

It is the children of the poor and marginalized communities who are often trafficked to be forced into labour. Parents of these children are either betrayed or lured due to their poor socio-economic conditions thus forcing them to 'send' or 'sell' their children for better livelihood options. The lack of awareness is a situation that traffickers exploit especially when it comes to uneducated poor living in slums and other backward regions in the country. Traffickers promise daily wages to parents of young children and transport them to big cities where they are often treated as commodities. Families in dire financial conditions are often approached by traffickers with an offer to buy their children and with no other escape from their pitiful conditions, parents comply.

In India, there is a great need for convergence and implementation of comprehensive child protection mechanisms. The Indian children are exposed to multiple vulnerabilities. With thousands of children still working in brick kilns, construction sites, and agricultural land, trafficking for the sake of forced child labour is widely prevalent. Apart from this, horrific stories emerge daily of girls as young as 9 years old being forced into the sex trade. Apart from these children are also sold by their parents to work in factory and industries that are highly dangerous with toxic environments. Child marriage denies children their basic rights to good health, nutrition, education, and freedom from violence, abuse, and exploitation. All children have a right to care and protection; to develop and grow to his/her full

potential, regardless of their social and economic situation. Child marriage is a blatant violation of all these rights.

GENDER INEQUALITY

Gender inequality has been a social issue in India for centuries. That in many parts of India, the birth of a girl child is not welcomed is a known fact. It is a known fact too, that discrimination starts from even before the girl child is born and sometimes, she is killed as a foetus, and if she manages to see the light of day, she is killed as an infant, which makes up the highly skewed child sex ratio where for every 1000 boys in India, there are only 908 girls. In such a scenario, it is but obvious that for myriad reasons, many girls across the country are forced to drop out of school.

Patriarchal norms have marked women as inferior to men. A girl child is considered a burden and is often not even allowed to see the light of the world. It is hard to imagine this state of affairs in the 21st Century when women have proved to be strong leaders in every field possible. From wrestling to business, the world has been revolutionized by exceptional women leaders in fields that were until recently completely dominated by men.

And this discrimination continues in every aspect. Be it education, health, protection, or participation, the girl child is always treated unequally. Indian society still hasn't been awakened to the importance of empowering women. The statistics still narrate a grim story of female foeticide, girl child discrimination, and gender bias.

YES

“YES” (Youth Employment Skill).

Our Mentoring and Leadership engagement uses affinity with young people and an understanding of their challenges to effectively guide and advise them to make correct decisions in a variety of situations - from the social, behavioural, financial, and educational to employability, young people can develop critical thinking skills that will enable and empower them to make better life choices and decisions.

With guidance on the core principles of effective self-management and leadership, we aim to support the young of today into the leaders of tomorrow.

Enrol in our ongoing “Yes” skill development short course for receiving information, advice, and guidance on turning your hobbies, passions, and interests into real money-earning reality.

Our last cohort enjoyed an amazingly powerful workshop where they received help on understanding how to start and register their own businesses. They were given guidance on must do and must know, how to raise funds and build your brand. Get advice from real entrepreneurs and business leaders on what it takes to become your own boss.
